

## David M. Hart

David M. Hart is Professor at the Schar School of Policy and Government at George Mason University and senior fellow at the Center for Clean Energy Innovation at the Information Technology and Innovation Foundation (ITIF). Prof. Hart is the co-author of *Energizing America: A Roadmap to Launch a National Energy Innovation Mission* (Columbia University Center for Global Energy Policy, September 2020) and *Unlocking Energy Innovation* (MIT Press, 2012). He is the author of numerous ITIF reports, most recently “Decarbonizing the Chemical Industry: Policy Insights from a Case Study of PVC,” (October 2022) and “Further Energizing Innovation in Fiscal Year 2023,” (May 2022, co-authored with Hoyu Chong). He also co-authored “Pathways to Decarbonize the PVC Value Chain in 2050” (Center for Energy Science and Policy, September 2022). Prof. Hart has served as senior associate dean of the Schar School and as assistant director for innovation policy at the White House Office of Science and Technology Policy (OSTP). He edited *The Emergence of Entrepreneurship Policy: Governance, Start-Ups, and Growth in the U.S. Knowledge Economy* (Cambridge University Press, 2003) and authored *Forged Consensus: Science, Technology, and Economic Policy in the United States, 1921 1953* (Princeton University Press, 1998).
